## Description

Available at BossMachinery!  
This KimeraK1260 KM 0018 Betonmenginstallatie Cement Mixer from 2019 has an engine power of - kW and counts 216 operational hours. The total weight of this Kimera K1260 KM 0018 Betonmenginstallatie is - kg and the dimensions are 11.30 x 2.45 x 4.07. Furthermore, this K1260 KM 0018 Betonmenginstallatie is equipped with Central greasing. The KimeraCement Mixer also has a CEmarking. Do you want more information or do you want to try the Kimera K1260 KM 0018 Betonmenginstallatie at our yard? Please let us know. The K1260 continuous mixing mobile plant is the largest model of the Kimera gravimetric mixers line. It is normally mounted on 3-axles semi-trailers, with a capacity of at least 45 tons, and offers up to 60 m<sup>3</sup>/h of production speed. The K1260 plant can simultaneously manage up to 12 different ingredients in a single mix design and in particular 2 different cements (or a cement and fly ash or other filler), making it the most complete mobile concrete plant currently on the market. K1260 can use aggregates up to 50 mm and make mixtures of any consistency. K1260 is the best choice for those who are looking for a mobile concrete mixer for large construction sites or to have maximum capacity at full load.
